EDUCATION

Example University

Bachelor of Science in Computer Science

City, State

Aug. 2018 – May 2022

Example Community College

Associate's in Liberal Arts

City, State

Aug. 2014 – May 2018

EXPERIENCE

Software Engineer Intern

Example Technology Company

June 2023 – Present

City, State

- Developed a REST API using FastAPI and PostgreSQL to store data from learning management systems
- Developed a full-stack web application using Flask, React, PostgreSQL and Docker to analyze usage data
- Explored ways to visualize team collaboration metrics in a dashboard setting

Information Technology Support Specialist

Example University

Sep. 2021 – Present

City, State

- Communicate with managers to set up campus computers used on campus
- Assess and troubleshoot computer problems brought by students, faculty and staff
- Maintain upkeep of computers, classroom equipment, and 200 printers across campus

Undergraduate Research Assistant

Example University Research Lab

May 2022 – July 2022

City, State

- Explored methods to generate procedural content using machine learning techniques
- Developed a prototype application in Java to evaluate the generated results
- Contributed 50K+ lines of code to an established codebase via Git
- Conducted a human subject study to compare alternative generation techniques
- Wrote an 8-page paper and gave multiple presentations on-campus

PROJECTS

Project Alpha | Python, Flask, React, PostgreSQL, Docker

June 2023 – Present

- Developed a full-stack web application with Flask serving a REST API and React as the frontend
- Implemented OAuth authentication to integrate data from third-party platforms
- Visualized platform data to surface actionable collaboration insights
- Used Celery and Redis for asynchronous task processing

Project Beta | Java, Maven, CI/CD, Git

May 2021 – May 2023

- Developed a plugin extending an existing platform with new gameplay features
- Published the plugin gaining 2K+ downloads and an average 4.5/5-star review
- Implemented continuous delivery to build and publish automatically upon a new release
- Collaborated with platform administrators to suggest features and gather feedback

TECHNICAL SKILLS

Languages: Java, Python, C/C++, SQL (Postgres), JavaScript, HTML/CSS

Frameworks: React, Node.js, Flask, FastAPI, Material-UI

Developer Tools: Git, Docker, CI/CD, VS Code, IntelliJ

Libraries: pandas, NumPy, Matplotlib
